COMPLIANCE CONFIRMATION LETTER

Protocol Compliance Statement - JT/T 808-2019 & JT/T 1078-2016

To: RAAD-TECH

Attn: Usaamayuusuf Cabdullahi

Re: Written confirmation of protocol compliance for MDVR model
LSZ-C5804DG-Q-F

Dear Sir or Madam,

With reference to our specification document

MDVR-808-1078-SPEC V1.2 ("the Specification"), we, **Shenzhen Tiantianyou Security Technology Co., Ltd.** (brand: **LSZ**), hereby confirm in writing that the following statements apply to the exact MDVR model supplied to **RAAD-TECH**:

1 Protocol Standards Support

The MDVR model **LSZ-C5804DG-Q-F** fully supports **JT/T 808-2019** (Road Transport Vehicle Satellite Positioning System - Terminal Communication Protocol and Data Format) and **JT/T 1078-2016** (Road Transport Vehicle Satellite Positioning System - Vehicle Video Communication Protocol), as described in the Specification.

2 Message Support Matrix

Message ID	Message Name	Direction	Confirmation
0x0100	Terminal Registration	Terminal → Platform	Confirmed
0x0102	Terminal Authentication	Terminal → Platform	Confirmed
0x0200	Location Information Report	Terminal → Platform	Confirmed
0x9101	Real-Time AV Transmission Request	Platform → Terminal	Confirmed
0x9102	Real-Time AV Transmission Control	Platform → Terminal	Confirmed
0x9205	Resource List Query	Platform → Terminal	Confirmed
0x9201	Remote Video Playback Request	Platform → Terminal	Confirmed

3 Media Streaming

Live and playback media streaming is delivered over **RTP** (IETF RFC 3550) using the JT/T 1078 extended RTP payload format, and is supported over both **TCP** and **UDP** transport, as specified in the Specification (Section 3.4 and Appendix A.4).

4 Firmware Version

The firmware version of the supplied units is:

Note: The firmware version of the shipped units cannot be retrieved at the time of issuance. It will be reported to the platform via the 0x0102 authentication message (software version field) and can be verified on the device after receipt.

5 Project-Specific Deviations

No project-specific deviations from the Specification exist for the configuration supplied to RAAD-TECH. Any future change affecting field semantics, message direction, response behaviour, security policy or compatibility shall be subject to a written change notice and version control, in accordance with the Specification (Section 1.2 and Appendix B).

6 Scope and Acceptance

This confirmation is limited to the capabilities described in the Specification and does not replace applicable laws, mandatory standards, the project contract or any written interface confirmation agreed by both parties. Acceptance testing shall be performed in accordance with Section 11 of the Specification on the basis of the confirmed terminal model and firmware version.

*This confirmation is based on **JT/T 808-2019**. Compatibility with the legacy JT/T 808-2011 protocol, if required by the platform, shall be confirmed separately in writing.*

For and on behalf of

Shenzhen Tiantianyou Security Technology Co., Ltd. Received and acknowledged by:
